

## Blue Horizons Metal Klear

### Key Features/Characteristics

- 🔑 A powerful metal sequestrant
- 🔑 Use to clear discoloured water
- 🔑 A phosphate-free formula

Blue Horizons Metal Klear is an effective product for the prevention and treatment of stain causing metals. This special formula is designed to prevent metals from dropping out of solution and works to clear pool water discoloured by metals.

### Application Instructions

1. Maintain pH level within the idea range of 7.2 – 7.6. If not in this range, adjust.
2. Apply the required dose of Blue Horizons Metal Klear to the pool water using the table below as a guide.
3. Add to the deep end of the pool with the pump(s) and filtration turned 'on', or near the water inlets to aid distribution.

Dose Rates				
Litres	Gallons	Initial	Fresh staining*	Maintenance
4,546	1,000	60ml	120ml	15ml
11,365	2,500	150ml	300ml	38ml
22,730	5,000	300ml	600ml	75ml
45,460	10,000	600ml	1.2ltr	150ml
68,190	15,000	900ml	1.8ltr	225ml

\*Fresh metal staining or water discolouration dose.

**Pre-treatment**

**Post-treatment**

Use in conjunction with Blue Horizons Natural Stain Remover for added 'spot' treatment

**Note:** For crystal clear water use Blue Horizons Ultimate Water Clarifier weekly.
