

Blue Horizons Natural Stain Remover

Key Features/Characteristics

- 🔑 All-natural stain remover
- 🔑 Works on all surfaces including vinyl & fibreglass
- 🔑 Removes metal & organic stains

Blue Horizons Natural Stain Remover is a natural formula designed to remove metal stains caused by excess metals in pool water. This product is effective in removing iron, copper and manganese staining.

Application Instructions

1. Adjust to the desired pH range of 7.2 – 7.6 and ensure total alkalinity is within the range 80 – 150mg/l (ppm).
2. Add the required dose of Natural Stain Remover when the pool pumps are turned off and water is calm. Sprinkle the product into the pool over the main 'spotted' areas of staining.
3. Let sit for 1 hour before turning the pumps on.
4. Re-adjust pH to desired 7.2 – 7.6 after product use.

Dose Rates			
Water Volumes		Mild or recent staining	Heavy staining
Litres	Gallons		
4,546	1,000	30g	53g
11,365	2,500	75g	135g
22,730	5,000	150g	265g
45,460	10,000	300g	530g
