

Certikin iSAVER

The energy saving pump inverter

The iSAVER Inverter is a low cost solution designed to greatly reduce the running costs of pool circulation pumps and improve the efficiency of swimming pool filtration.

Swimming pool pumps invariably run at higher flow rates than necessary. iSAVER Inverter technology enables you to control both pump flow-rates and pump run times.

Swimming pool pump energy conservation is evolving, it's now possible to reduce the running costs of your pool pump by as much as 60% simply by linking your existing pool circulation pump to an inverter.

Cost effective • Easy installation • Energy efficient • User friendly • Improved water quality
